SureColor S9100

Designed for superior efficiency and print quality, this high-performance, 64-inch eco-solvent printer features an 11-colour UltraChrome GS3 ink system, including an added green, to provide vibrant prints with a wide colour gamut. With a 10% increase in productivity* and user-replaceable printhead, it ensures faster output, minimal downtime and high precision for professional graphics and signage.

High-performance ink system

Building on the heritage of Epson S-Series printers, the SC-S9100 boasts superior performance and is perfect for applications such as signage and graphic design. It features an 11-colour UltraChrome GS3 ink system, including a newly added green. This extended range delivers vibrant, accurate prints with enhanced colour precision, on a variety of media with fewer passes, ensuring both quality and speed.

Increased productivity

Whether you're printing signage, graphics or other large-format jobs, the SC-S9100 delivers outstanding speed without compromising on quality. Engineered by Epson for maximum efficiency, offering a 10%* productivity boost - further enhanced by the printer's advanced drying system, which reduces downtime and streamlines overall workflow by ensuring that prints are fully cured and ready for handling almost immediately.

User-replaceable PrecisionCore printheads

Designed around Epson's advanced PrecisionCore technology, ensuring sharp, high-resolution output with consistent quality, the SC-S9100 excels in demanding print environments, delivering the exceptional levels of precision and clarity required for professional signage and fine art. It's super-simple to maintain, too, with printheads that can be quickly and easily replaced with no special tools or skills, allowing you to keep your printer running smoothly, while maintaining outstanding quality.

Compact design for flexibility

Ideal for environments where space is limited, this superbly compact printer is shorter than previous models, and features a low-profile, flat-top design that enhances versatility by providing extra workspace for tools or connected devices, without compromising functionality. Easy to install, manage and monitor, the SC-S9100 integrates seamlessly into tight workspaces, making it simple to perform routine maintenance, so you can complete print tasks with minimal disruption.

KEY FEATURES

- **Boosts productivity with a 1.3x larger printhead***
  Increases speed by up to 10%*, making it perfect for high-volume printing environments
- **11-colour UltraChrome GS3 ink system including green ink**
  Achieve ultra-smooth gradations and vibrant, accurate colours with an extended colour gamut.
- **Compact design and easy installation**
  Ideal for tight spaces, with a small footprint, low-profile, and flat-top for easy access and use.
- **Minimises downtime with user-replaceable printheads**
  Keep your workflow smooth and efficient with easily replaceable printheads, requiring no specialist tools or service calls.
- **Ideal for professional graphics and signage**
  Epson's advanced PrecisionCore technology guarantees high-resolution output, providing crisp, detailed prints - every time.
