

Make the switch to Epson's business inkjet range

Business inkjets improve...

-  Environmental performance
-  Economic performance
-  Societal performance

If every business in Western Europe¹ made the switch from lasers to Epson business inkjets there would be...

-  **Up to 94% less waste²**
...a waste saving of at least **221,000 tonnes**.
-  **Up to 96% less energy²**
...enough energy saved to run at least **507,000 households**.
-  **Up to 92% less CO₂²**
...a saving in CO₂ equivalent to the volume absorbed by at least **26.9 million trees**.
-  **Up to 3.5x faster than lasers²**
...without compromising on quality

1. Germany, France, Italy, UK, Spain, Netherlands, Switzerland, Sweden, Austria, Belgium, Finland, Denmark, Norway, Portugal, Greece and Ireland. To understand these savings and how they can benefit your business please visit: www.epson.eu/make-the-switch
