WorkForce Pro WF-M5298DW

This mono printer increases productivity, while reducing intervention, your business printing costs and environmental impact.

Take advantage of low power consumption, a low Total Cost of Ownership (TCO), a fast First Page Out Time (FPOT) and features designed for easy business integration with the new WorkForce Pro WF-M5298DW. This business inkjet printer benefits from automatic double-sided printing, making any job easy and efficient, and PDL compatibility, including PCL and PostScript 3.

High productivity and low intervention
Delivering the fastest (FPOT) in its segment of 4.8 seconds against comparable lasers[1]. Print up to 40,000 pages without changing supplies with the largest ink yield in this segment[2]. A simple paper path and non contact printing allows it to print on a wide range of media including recycled paper, glossy media, envelopes and labels. Features a 251-sheet paper input capacity.

Energy saving and CSR
Benefit from significantly fewer consumables due to its high yield and inkjet technology. The energy used while printing is at least 90% less than comparable laser models[1], helping to cut your energy bills and boost your CSR.

Built for business
Perfect for small workgroups with a high print volume, typically within larger organisations where a robust mono printing solution is demanded. A range of software and tools provide secure print options and help manage devices remotely. NFC and wireless connectivity also supports printing from mobile devices. Its user interface is intuitive and easy to operate.
